

## **Group 06 – Greenbrier/Monroe Co., VA/WV - II**

Ancestors of those who tested into **Group 06** originated from: Greenbrier Co. VA/WV (created 1777 from Montgomery Co., VA) and Monroe Co., VA/WV (created 1799 from Greenbrier Co., VA/WV). The two individuals tested do not match those in **Group 5**. The question remains:

Does this indicate that there were at least two separate Bland families in Monroe Co.?

**G06.A Joshua Bland** (ca 1761 - ) AC18, pp. 90-92; AC24/26, pp. 125-143.

DNA participants in this group are:

**Kit # 110012**

**Kit # 152579**

Or, was there a non-paternity incident somewhere in the **Group 06** line?:
