

Family Line Numbers

New Family Numbering System for Those Without DNA Results

Many of the Family Lines previously listed at the Bland Heritage Website (updated 2005-7-29 and 2007) have been merged with other families, often thanks to the new evidence supplied by the 21st century science of DNA identification. When DNA results are available the Family Number becomes a Group Number (G+number). Those families without DNA participants will be identified by the new family line numbers (F+number). Numbers from Old Numbering System are in Brackets []
